

Fact sheets

USA car hire

Affordable car rental in the USA

- With a country that is so vast a car is essential and we have some tips for you to ensure that you match the right car to your customer's requirements.

- Our partnerships with the USA's leading car hire companies such as Hertz, Dollar, Thrifty, Greenmotion, and Europcar means you can book with peace of mind.

Whether you're travelling on holiday or business, we have car hire destinations right across the USA.

Tips

- When booking on Affordable's website, we will always show next to the car description how many adults, children and cases can fit in any given car. Always remember that a car for a family of four will not necessarily be big enough because of the luggage.
- Hiring a car in the USA requires a minimum age of 25.
- Taking small children abroad? Child seats and booster seats are compulsory in most states of America so you will be required to hire locally. Why not offer a "Bubble Bum"? It pays for itself after 1 holiday and can be used for subsequent holidays, school trips or can even be lent to grandparents.
- Eliminate any concerns your customer may have about finding their accommodation by pre booking a sat nav. Affordable will arrange for sat nav to be ready and waiting when your customer collects their car. They may be heading straight to a hotel in Orlando or

touring around California, either way they will find their destination first time having already budgeting for it. Once again another ACH commissionable item.

- Car Hire makes a fantastic (and cheaper) option to transfers if your customers are on a cruise and stay. We have rental depots in all major cruise ports.
- Two centre holidays are ever popular in places like Florida and the West Coast. Why not offer Orlando and the Gulf Coast or San Francisco and Las Vegas? One way fees may apply depending on the supplier and locations.
- Upgrade to our Platinum option and your customer will receive 3 extra drivers and a free tank of fuel! Subject to Supplier.
- If you don't like waiting around for public transport or sitting on a tour operator's coach when you arrive at your destination, then airport car hire is ideal.
- It's always best to book your airport rental car well in advance to avoid waiting around when you arrive at the airport and ensuring you get the vehicle you really want.
- Get your holiday or business trip off to a convenient start and head straight to your ongoing destination by booking an airport hire car now with Affordable Car Hire.
- No deliveries are available within the USA.
